To Whom It May Concern:

This past year, it has been my unique privilege for our organization to become a client of Xcentech Computers. The people have been tremendous! Everyone has been so friendly and very helpful! And thanks to them, the transition from our previous registrar was a smooth one.

We are very pleased with the wonderful job that they have done refining and maintaining the site, along with their rapid response to any questions we may have. I have been especially impressed with their work ethics and have appreciated the impeccable follow-up and professionalism which the staff members demonstrate. We are indebted to them for their kindness and the extraordinary service they provide.

Thank you, Xcentech. I would highly recommend your services to other non-profits and/or to clients in general.

Gayle Woods
Founder/Executive Director
